### **Tell us why you would want to serve on the Board of Directors.**

I want to serve on the board of directors so I can meet other brokers and agents across our industry to see what it is we can do to help each other. I believe there is a big enough market in Oklahoma for all of us to see success; however, beyond the profits and losses of our businesses I think we are a large enough group that can change our industry in a way that makes it better for us all. As one of the largest organized groups in the country, if we come together on common goals and objectives then we are better equipped to serve the communities in which we work in.
