Personal Philosophy is "Get up, get dressed and go to work. Failure is not an option"

Tell us why you would want to serve on the board of directors.

I am terming out on the OKCMAR Board this year and while in the past I have served in various capacities for MLS, I did not get the chance to contribute to the extent that I wanted to. I have a strong desire to make sure that the voice of the membership gets heard and that continue to offer the tools that our membership needs and we make sure that we look ahead on technology and grow our offerings. Our biggest challenge in 2022 is our lockboxes and whether or not to renew our contracts or to offer a different or potentially better experience.
