

2022 Board of Directors Nominee Bio

Name: Matt McCaleb

Service to NAR, OAR, OKCMAR and MLSOK:

I have served as a Realtor in the Oklahoma City metroplex and surrounding areas for the last 2 years and 4 months. During this time, I have become an RPAC major investor, as well as a well-known individual in the real estate community that is highly involved in all activities I can be a part of. These organizations are doing the hard work of challenging themselves to embrace new perspectives, and acclimate to change. I want my voice to be heard, and to make sure that there are helpful perspectives to embrace and to challenge individuals to be the best version of themselves!

Service to other boards and committees:

Tell us a little bit about your personal life and personal philosophy.

I am a 29 year old agent out of Oklahoma. I was born and raised in this industry, as my entire family has served in this industry in one way or another. I am a real estate expert in the Oklahoma City Metro and surrounding areas. I am passionate about the growth of our communities, and the longevity of the culture that we have created in the great state of Oklahoma. Serving my community in this capacity means the world to me. I am rewarded daily when I am given the opportunity to encourage growth in our communities, helping our clients buy, sell, and invest in Real Estate.

Tell us why you would want to serve on the board of directors.

When you serve on a board, you have the honor, challenge, and responsibility of understanding how everything needs to work together for an organization to accomplish its goals. I find this invigorating. That said, I have always held myself to a standard that I will always be challenging myself, and becoming the best me that I can be. In this position, I would get a valuable seat behind the wheel of a major organization and play a key role in strategizing and implementing plans to make OKCMAR and its members work better together, and as individuals. The fact of the matter is that everything is connected in a successful organization, and I would love to play my part. Additionally, I want to be a voice for us as Realtors, and as a board member, Your voice is likely to be heard and it has impact. You hear the impactful voices of others, too. I'm not the person at the board meeting talking legalese or providing insight regarding optimal care. There are other board members and staff experts who are far, far more qualified to do that than I am! But I try to bring my talents to the table. For me, that's my knowledge of public perceptions of serving organizations, data, marketing, and engaging audiences.
