Tell us a little bit about your personal life and personal philosophy.

This year I will be celebrating my 20th year in real estate. Since becoming a Realtor I have had many goals. Many I have accomplished, such as earning my e-Pro, GRI, AHWD, C2EX and ABR designations along with becoming a broker January 2021. I still have several goals to accomplish, and one is having a leadership role serving my Realtor community, sharing my knowledge and giving back to an organization that fights for the rights of homeownership, which I am very passionate about. I want to lead by example and be a role model for agents across our MLS.

Tell us why you would want to serve on the board of directors.

Because I have a very strong knowledge of this Industry and the MLS and feel the importance of giving back to my fellow colleagues. I want to serve this board and bring a new perspective to the table for the challenges we may face during 2022. I have a high level of commitment and work hard to provide service with integrity that I would like to pass along to our "New" agents coming into this industry.
