

2024 Board of Directors Nominee Bio

Name Vickie Zenker

Tell us a little bit about yourself and your philosophy.

With almost 23 years of marriage, three beautiful daughters, two sons-in-law, and four amazing grandchildren, my family holds a special place in my life. My grandchildren, in particular, are my greatest joy and serve as my favorite hobby. In terms of my professional journey, I entered the Real Estate Industry in 2014 after spending many years in the Mortgage Industry. Throughout my career, my mission has been to assist others in achieving success, dedicating over 1,000 hours to coaching individuals on their paths to prosperity. I firmly believe that active involvement is key to fostering the growth and prosperity of the Real Estate Industry. Serving others is an incredible honor, and when we collaborate as a collective force on behalf of all agents, we ensure the industry remains relevant and allows real estate professionals to take pride in their careers as business owners.

Please list your involvement in NAR, OAR, OKCMAR and MLSOK:

RPAC \$99 contributor

2023- Serving on committees for Membership and Government Affairs Homeless Initiative. Also Chair of sub task committee for Marketing under the umbrella of Homeless Initiative.

2022- Served last year on the Education Committee

Moved from California where I served on the Education and Events Committees. I chaired the Events Committee. Prior to Real Estate I was named Affiliate of the Year in 2014 and came into Real Estate 2014.

I also served for 3 Years as Treasurer for the Women's Council of Realtors.

What sparked your interest in serving on the OKCMAR Board of Directors?

Serving on the board of directors for the real estate industry would allow me to be a voice for the community while preserving the mission of real estate agents in facilitating the dream of home ownership. I also believe protecting our industry while also growing is a collaborative effort that is local to the overall communities in which we serve. During my time so far on the Government Affairs, Homeless Initiative, I have also been able to go to City events, City of Council and more. I believe The Board of Directors can promote responsibility, change, and keep the industry focused on sustainable growth. I have been involved in some capacity or another helping agents grow their business and treat it like a business while building relationships. Relationships matter with the entire membership base, and I believe I could fill those shoes. I would be humbled and honored to assist and serve others. Sharing the tools, I have learned in leadership and collaborating with others is part of my mission.
