

Name

Amy Chambers

Please list any service (committees, boards, etc) to MLSOK, your local association, OAR, NAR, or others within the industry.

I haven't served on any formal committees or boards yet with MLSOK, OAR, or NAR-but I'm really looking forward to getting involved. I care a lot about our industry and want to be a part of the conversations that help shape and support it. I'd love the chance to learn more, serve our local board, and be an advocate for other professionals. I'm ready to show up, contribute, and grow through the experience.

Tell us a little bit about yourself. Please include any community involvement or personal philosophy.

I've been a licensed Realtor in OKC for 13 years, and my husband and I love living in southwest OKC. We've got a big crew-five kids and two grandkids-and life is full in the best way. Outside of real estate, I've been involved in our church in different ways over the years, leading groups through programs like Financial Peace and Divorce Care. I really enjoy helping people find a little hope and clarity during what can be really hard and stressful times.

That heart for people is what drives me in both life and business. At Flotilla, I also get to lead and support other agents as they grow their businesses, and I love seeing them succeed. I'm all about showing up, listening well, and doing things with integrity. I'd be honored to bring that same energy to the MLSOK board-helping make sure our MLS continues to serve agents well and keeps our industry strong.

What motivated your desire to serve on the MLSOK board?

I've been challenging myself to step out of my comfort zone lately, and it's been good for me. When the email came through about the MLSOK board, I thought-this might be the perfect way to start getting more involved. I've always believed in showing up for your community, and this feels like a great place to do that within the Realtor world. I care about our industry and the people in it, and I'd love to play a small part in making it even better.
