

**Name**

Nikii Hubbs

**Please list any service (committees, boards, etc) to MLSOK, your local association, OAR, NAR, or others within the industry.**

MDMAR board president, vice president, secretary/treasurer, currently serving as a director. I've been involved in this board for 15+ years. I've served as a state director on the state board. I've served on Professional Standards for OAR for several years. Served on numerous committees with my local board including bowling, golf, banquet, luncheon, etc. I've served as the chair on almost every one of those committees. I am currently the vice president of the OKC Women's Council of Realtors.

**Tell us a little bit about yourself. Please include any community involvement or personal philosophy.**

I try to give back to the community as often as I can. I currently volunteer at the Children's Hospital and cuddle babies in the Nicu. I also volunteer with the Oklahoma blood Institute for blood drives. I try to make myself available for opportunities to volunteer through our community service group at my local board.

I have been in real estate since 2000, I haven't experienced as much as some people, but I have experienced a lot in my 25 years. I love what I do even on the days that it can be extremely stressful.

I have two grown children and two grandchildren and have been in Oklahoma since I was 14. I love to travel with my family and my friends. I love the social life and always going and doing things. Networking, I would say is one of my specialties and I try to attend as many events as possible, personal and professional.

**What motivated your desire to serve on the MLSOK board?**

I'm always wanting to learn and be involved with the industry I work in especially with everything always ever changing. I think it's important to be knowledgeable not only for yourself and coworkers but also for the public. I never claimed to know everything. I don't think anyone can, but it's nice to be involved to at least learn about things or have people you can contact if you don't have all the answers.
