Tell us a little bit about yourself. Please include any community involvement or personal philosophy.

I am Ashley Mason. I grew up in a small town in rural Oklahoma. While in high school I had the opportunity to serve on a CareerTech Board for our state Health Organization while completing a nursing program which sparked my joy of serving others. I obtained my bachelors degree from the University of Central Oklahoma in Human Services with the intentions of being a social worker, but through a series of events and God blessing me with my real estate mentors, I became a REALTOR®

. Since obtaining my license, I have been privileged to serve in our industry in a variety of capacities and have been able to attend many conferences, leadership weeks, and meetings from a local, to state level and even at a national level which has not only given me insight into a vast amount of key components. It also has given me an immense gratitude for what we do in our industry, and truly who we R®

. As a REALTOR®

we often times forget that we, as individuals, actually mean nothing, for we are only mirrored small pieces of a much larger picture of the entire industry and brand for which we represent. I would be honored to serve on the Board of Directors for the Oklahoma City Metropolitan Association of REALTORS®

to continue to seek change and advocate for those whose voices may otherwise go unheard.

What motivated your desire to serve on the OKCMAR board?

I was motivated to serve on the Board of Directors because I understand that I must be the representative of the industry values I hope to see and the changes that I want to implement. I know that my voice is important and through advocacy and serving others I am able to make lasting impacts for generations. I am aware that the most important aspect of my involvement in industry is through policy changes and implementations and serving on the board is the best ways to truly influence those policies
